If you like roguelikes or Mega Man, 20XX is for you!

20XX is a roguelike action platformer that you can play with a friend. Jump and shoot your way through ever-changing levels, collect awesome new powers, and battle mighty bosses in the name of saving the human race maybe!

20XX also features full co-op. Play with a friend on the couch or over the interwebs!

20XX supports 1-2 players locally or online via Steam.

Features:

- Over 100 mighty powerups to collect!
- Tons of different play modes and optional difficulty modifiers!
- Seeded Daily and Weekly Challenges!
- All gameplay features available in both single player and co-op! (online or local)

Roguelike Elements:

- Random levels: each time you play 20XX, the stages you play through will be brand new!

A Mega Man X clone with rogue-lite elements and online Co-op. I am someone who would almost always prefer handcrafted stages over random generation. But this game makes random stages work and provide adequate challenge that Mega Man X fan would expect. The random elements offer even more replayability than your average Mega Man game, making each run very unique due to never receiving the exact same loot each time. It really forces you to weigh your decisions about what items you will use. Amazing game worth its full price multiple times over, and if it's on sale, then it's not even a question as to whether you should pick it up or not.
